CURRICULUM VITAE

PERSONAL INFORMATION	Roberto Iorio Dipartimento di Scienze Cliniche Applicate e Biotecnologiche (DISCAB) Via Vetoio, Coppito 2 67100 L'Aquila, Italia E-mail istituzionale: roberto.iorio@univaq.it
CURRENT POSITION	Researcher, Assistant Professor
EDUCATION OTHER QUALIFICATIONS	2002 – M.Sc. in Biological Sciences cum laude at the University of L'Aquila 2006 – PhD in Molecular and Cell Biology
ACADEMIC APPOINTMENTS	from March 1990 - Technical Assistant, sixth level, technical area, scientific technician from October 2007 – Assistant Professor
CLINIC APPOINTMENTS	/

Cliniche Applicate
e Biotecnologiche

TEACHING EXPERIENCE	<p>2007 – 2019, Course of Biology, Chemistry and Biochemistry - E0472</p> <p>2019 – Molecular Mechanisms and Biomarkers in the Cellular Response to Stress - B0495</p> <p>2020 – Molecular and Cellular Adaptations (Course of Cellular, Morphological and Physiological Adaptations in High Performance - E0488)</p>
RESEARCH ACTIVITIES	<p>In recent years, research activity has been aimed at studying mitochondrial functionality and dynamics in relation to redox homeostasis and cellular bioenergetics. These processes have been investigated in the following biological fields:</p> <p>Study of the biological effects induced by extremely low frequency electromagnetic fields (EM-ELF) on different in vitro cellular models (human spermatozoa, muscle and endothelial cells).</p> <p>Evaluation of the molecular mechanisms underlying energetic and oxidative stress responses induced by currently used azole fungicides on Mouse Sertoli cells.</p> <p>Evaluation of cytoprotective and immunomodulatory activity of paraprobiotic Lactobacillus sakei on human conjunctival cells treated with inflammatory inducers like preservatives or drugs used for the treatment of glaucoma.</p> <p>Currently, the research activity is mainly aimed at studying the cytoprotective and mitoprotective activity of natural/synthetic compounds in human trabecular meshwork and conjunctival epithelial cells exposed to active compounds with pro-oxidant activity.</p> <p>Of recent interest is the study on the distinct mechanisms of response to stress and the intercellular mitochondrial transfer (extracellular vesicles and nanotunnels).</p>
RESPONSIBILITY IN ACADEMIC ACTIVITIES	<p>2016 – 2019 Member of the Discipline Board</p> <p>2021 – PhD Academic Board Member</p>
EDITORIAL BOARD, EDITORIAL ACTIVITIES, SOCIETY MEMBERSHIP	<p>2011 - Member of the Italian Association of Biology and General and Molecular Genetics (AIBG)</p> <p>2009 - Member of the Scientific Committee of the National Inter-University Research Center on the Interactions between Electromagnetic Fields and Biosystems (ICEmB).</p>
SCIENTIFIC ACHIEVEMENTS BIBLIOMETRIC INDICATORS	<p>Scopus Author ID: 35948722500</p> <p>http://orcid.org 0000-0003-1863-5752</p>
